

WIRELESS INTERNET POLICY - WiFi

The Menominee County Library allows patrons to use their personal devices to access the Internet via a wireless network (WiFi) throughout the library.

Patrons who access the WiFi agree to comply with the library's Internet Use Policy.

1. The Library's WiFi network is open and unsecured, connection is at the patron's own risk. Patrons connecting to the WiFi do so knowing the risk, and agree to hold the Library harmless from any claim or loss.
2. The Library is not responsible for the content of websites or email accessed through the Library's WiFi.
3. The Library staff is unable to provide technical assistance to users regarding wireless access. Users are encouraged to contact the vendor for assistance in configuring their equipment.
